

VRIS UPDATE

Successful Employment Outcomes Effective 12/7/07 Number 123

SUMMARY OF UPDATES

An addition and a change have been made to this chapter.

In Process, a step has been added for updating the QUEST record screens as noted in the chapter titled “Easter Seals and Outsourcing of Supported Employment Cases.” There is a hyperlink to chapter. This updating means that Easter Seals or the Outsource Monitor for SE cases not receiving Social Security will have the contact information for the Extended Services provider.

The change in the chapter occurs in the first two steps of the QUEST section of this chapter. Previously, a QUEST case in Employment Follow up over 90 days would generate a To Do of “Overdue Employment Determination.” Now, the To Do reads “Available for Successful Outcome. Some staff were interpreting the previous To Do as immediately having to move the case to an Employment Outcome.

TEAM COMMUNICATION

The chapter on Easter Seals & Outsource Monitoring of SE Cases was issued on July 17, 2007. A brief reminder to update the QUEST screens noted in this chapter as a step in completing an Employment Outcome in an SE case should be sufficient.
